

Hazardous Waste Operations and Emergency Response - Operations Level / Refresher

CALIFORNIA JPIA WORKSHOP DESCRIPTION

The initial responders at the HAZWOPER - operational level are trained to respond in a defensive manner, and are trained not to approach hazardous releases to stop the release. Their function is to contain the release from a safe distance and to prevent exposures. Participants will be trained in the incident command system, basic HAZMAT response organization, site control, and the selection and use of proper personal protective equipment (PPE). The Department of Transportation Emergency Response Guidebook is also explained. This workshop meets the requirements of Cal-OSHA General Industry Safety Orders §5192(q)(6).

THE FOLLOWING TOPICS WILL BE COVERED

- Gain knowledge of site characterization and analysis
- Understand release types including incidental release, incidental/emergency response, and emergency response
- Be able to identify and recognize container shapes and markings using the Department of Transportation (DOT) Emergency Response Guidebook
- Understand mitigation action and techniques

WHO SHOULD ATTEND

Public Works Employees, Public Works – Water/Sanitation, Public Works – Street Maintenance

PRESENTED BY

Steve Damewood, Damewood Consulting Group

Steve Damewood is an independent consultant for both private and public agencies. He has more than 30 years of experience in occupational safety and health. He has served as a safety manager with a local oil refinery and a large construction company. Steve is a designated expert witness in both civil and workers' compensation courts, a Registered Safety Administrator, and has a Certificate in Occupational Safety and Health from Orange Coast College and Personnel Management from UC Irvine.
