

Respirator Certification

CALIFORNIA JPIA WORKSHOP DESCRIPTION

This is a comprehensive workshop that provides training for respiratory hazards, types of respirators and their limitations, care and maintenance procedures, and implementation of a respiratory protection program. The agency shall have on file a current medical evaluation for each potential user to determine the individual's ability to use a respirator, before the individual is fit tested or required to use the respirator in the work place. A qualitative fit test (QLFT) will be conducted on each potential user to assess the adequacy of respirator fit. Each attendee must supply their workplace respirator for the fit test. This training meets the requirements of Cal-OSHA General Industry Safety Orders §5144. Certification is valid for one year.

THE FOLLOWING TOPICS WILL BE COVERED

- o General respirator hazards
- o Correct use and limitations of selected respirators
- o Use of, care of, and maintenance of selected respirators

WHO SHOULD ATTEND

Public Works Employees, Public Works Directors, Public Works – Facilities Maintenance, Public Works – Landscape Maintenance, Public Works – Street Maintenance, Public Works – Water/Sanitation, Fire Officers

PRESENTED BY

Steve Damewood, Damewood Consulting Group

Steve Damewood is an independent consultant for both private and public agencies. He has more than 30 years of experience in occupational safety and health. He has served as a safety manager with a local oil refinery and a large construction company. Steve is a designated expert witness in both civil and workers' compensation courts, a Registered Safety Administrator, and has a Certificate in Occupational Safety and Health from Orange Coast College and Personnel Management from UC Irvine.
